

### Readiness Assurance Test

Choose the most appropriate response for each question.

- 31) Suppose you know that every vector in  $\mathbb{R}^5$  can be written uniquely as a linear combination of the vectors  $\{\mathbf{v}_1, \dots, \mathbf{v}_n\}$ . What can you conclude about the set  $\{\mathbf{v}_1, \dots, \mathbf{v}_n\}$ ?
- (a) It does not span and is linearly dependent
  - (b) It does not span and is linearly independent
  - (c) It is a basis of  $\mathbb{R}^5$ .
  - (d) It spans but it is linearly dependent
